

QUALITY POLICY

Active Space Technologies is committed to delivering innovative, high-quality products and services to the aerospace industry. We strive to enhance our competitiveness by developing and providing technological solutions that meet both product and process requirements.

In line with our core values and the best practices of the aerospace sector, we focus on the following key areas:

Fostering Innovation and Excellence

At Active Space Technologies, we actively promote a culture of innovation that encourages creativity and critical thinking. By providing a supportive environment for our team, we inspire them to come up with forward-thinking solutions. We are also dedicated to continuous learning and the professional development of our staff, ensuring that the company remains sustainable and future-focused.

Maintaining High-Quality Standards

We take pride in maintaining high standards for both our products and services. Our aim is to consistently meet or exceed industry standards, with a focus on safety, first-time quality, and the continuous improvement of our processes. By investing in our people and operations, we ensure that our customers' needs are met while also elevating quality standards within the aerospace industry.

Ensuring Compliance and Regulatory Excellence

Compliance is at the forefront of our operations. Active Space Technologies is committed to adhering to all relevant legal, regulatory, and customer requirements. We follow international standards, including EN 9100:2018, to ensure that our solutions are safe, reliable, and compliant with aerospace best practices.

Strengthening Relationships with Stakeholders

We place significant value on the relationships we build with our customers, suppliers, and business partners. Trust and collaboration are central to our approach, enabling us to work together for mutual success. These strong relationships allow us to meet the evolving challenges of the aerospace industry while delivering results that benefit all parties.

Promoting Sustainable Business Practices

Sustainability is integral to our business operations. We are committed to minimizing our environmental impact and implementing sustainable practices throughout our operations. By adopting innovative solutions, we aim to drive business opportunities that not only improve outcomes for our customers but also create positive social and environmental impacts.

Managing Risks and Seizing Opportunities

At Active Space Technologies, we recognize the importance of managing risks and identifying opportunities for growth. We have established a comprehensive risk management framework that allows us to stay agile and responsive to challenges in the aerospace sector. This approach ensures that we remain resilient and well-positioned for future success.

Engaging Employees in the Company's Success

Our employees are the driving force behind Active Space Technologies' success. We are committed to fostering a work environment where knowledge sharing, creativity, and high performance are encouraged. Our company values diversity, teamwork, and collaboration, and we empower our employees to contribute to our mission of delivering exceptional results for our customers.
